We Are More is a community awareness call to action program advocating for Peace in the society. It is a campaign that seeks to draw Kenyans to embrace Peace especially during the election period when radicalization is on the rise and neighborliness becomes volatile. The program calls upon the all people living in Kenya; young and old alike to actively involve themselves uplifting Peace in their daily activities. Through reaching out to the every community member in person and through media, The We Are More campaign aims to urge the mass to put away every action and word that elevates their individual differences and opinions over 'being human'; to remember that the ordinary neighbor today is tomorrow's savior.
