

MOMBASA CAMPUS STAFF TEAM BUILDING

On June 10, 2017, the members of staff from University of Nairobi, Mombasa Campus were given a treat at Moana, Diani for team building bonding activities. Everyone was excited about the power of adventuring together as a team of employees from Mombasa Campus. The aim was to interact and share imaginations and realities among the staff. The staff had a great experience as it was a great day that brought all the campus staff together as Family. As part of the University performance contracting requirements each unit is mandated to take its staff for team building at least once a year out of the normal working station.
